Oak Class Celebration

Newsletter

We have had another fantastic term! With a lot of enthusiasm, we have continued our history focus on WW2. We have been learning about the effects of the war in Britain – which included a funny part of a lesson sitting in our Morrison shelters (under the tables). I wish I had a photo to share! We also had a wonderful time at Dover Castle – where the children were praised by staff for the excellent behaviour and engaging questions.

We have revelled in many creative lessons this term – the carrot cookies from a war time rationing recipe being one of our favourites. We have also drawn all over our tables measuring angles in Maths and spent time in our outside area creating towers from sticks when learning about measurements. Next term we will be looking at architecture from around the world and from different religions which will be fascinating.

The children have continued their maths lessons with attentiveness – helped by some smarties, fruit ‘mocktails’ and outside learning.

We have secured our knowledge of area and perimeter as well as using protractors to measure angles.

We have been unrelenting in our test practise- you’ll be please to read that the children all approach these with calm common sense.

Looking to Term 5

Next term, we will be looking at *Arabian Nights* as our English text, properties of shape (including circles) in maths, Animals in their Habitats in Science and the classroom in French – we will be continuing with Understanding Christianity in RE and using Purple Mash as part of our ICT lessons.

Highlights to look forward to . . .

School Journey and Greenwich Trip

Astrodome visit

Magistrates talk

1st Aid Course

World at Work Day

Year 6 Together Day

Kent Police Schools Open Day

KS2 PRODUCTION

Please continue to support your child with:

- Practising times tables (66% of SAT's paper need times table knowledge)
- Practising year 5/6 spelling words
- Reading – both fluency and speed.

After Easter we will have just **13** school days before the SAT's. Please ensure your child is in school every day.

I have had such a brilliant year with this class so far. The children are well behaved, interested and interesting to teach. They conduct themselves very well when out of school and represent, me, their class, the school, YOU and themselves beautifully. They make me very proud.
