

Rowan class Celebration Newsletter

Term 5

We have been doing lots of practical maths. We loved making arrays with glass gems.

This term our topic has been Explorers.

We have enjoyed learning about significant explorers and finding out about their travels.

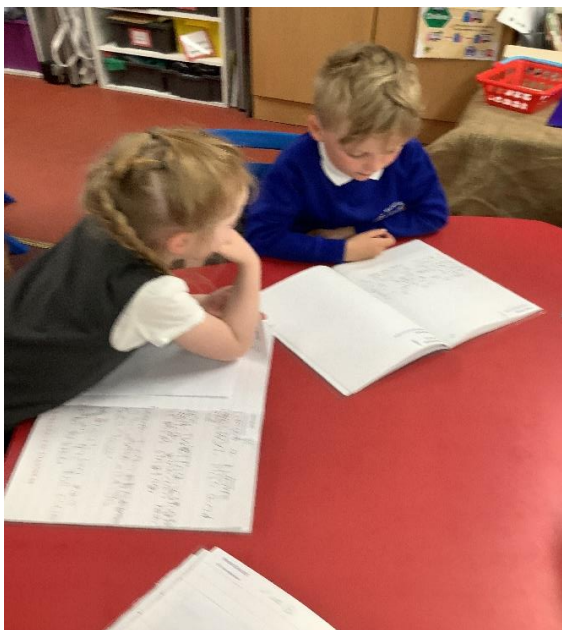

We have enjoyed leaning about plants.
We planted sunflowers and made our own flower artwork

We enjoyed meeting lots of creatures and reptiles.

Looking forward to Term 6

In Literacy we will be exploring some different traditional tales from around the world. We will be asking questions, making predictions and inferences about settings and characters. We will also be retelling a traditional tale and writing the narrative.

In Maths we will begin the term by focussing on place value with numbers all the way up to 100. We then move onto measurement and we will look at money and time. Throughout the term we will be incorporating a lot of problem solving and reasoning for children to apply and explain what they have learnt.
